WESTON — Homeowners looking for a deal on hardwood and other types of flooring have a new option in Lewis County.

Hardwood Liquidators sells solid hardwoods, engineered hardwoods, laminates and vinyls.

When a brand name line is being liquidated, Hardwood Liquidators purchases the last of the inventory, according to Manager Jeff Denham.

“When they do a design in a series on a model and they get to the end of that series, before they change the name of the series, they sell what they have left,” he said. “The distributors do so normally at a discounted price, so we can pass the discounted price on to the consumer.”

The business is located in Stonewall Junction Plaza at 133 Staunton Drive, behind Burger King, just off U.S. 33 in Lewis County.
